

3. ACCHADANA/MULCHING

Buhpawl leh hnim hnah kan paih mai mai tur hmang a thlai khuh hnawn hi tui harsatna hmun ah phe chuahn thil tangkai tak ani. A bik in phunsawn tirh hian ni sa em nasa lutuk tur lakah thlai a veng thei a. Lei a tih hnawn mai bakah hnimhnah tawih khan lei ah chaw tha a siam sak a, tin, hnim (weeds) to tur a dal bawh ani. Mulching hian lei chunglang hang tha luangrual tur tam tak a veng bawh a ni.

4. WAAPHASA/MOISTURE (Soil Aeration)

Thlai hi tha taka thang chho tur chuan lei thawl tha an mamawh a. Bawng ek leh zun hmanga leitha siam te, lei kan khuh hnawn te hian kan leilung ro lutuk tur a veng, kan thlai chin thanlen nan nasa tak in apui thei a ni.

NATURAL FARMING

Components of Zero Budget Natural Farming:

1. BIJAMRITA

Thlai reng reng a chi kan kui/tuh hmaa damdawi hmanga sawngbawl a pawimawh em em a. A chi kan chiah hian natna awm thei tam tak lakah a ven mai piah lam ah, a tiak pawh tha tak in alo to theih phah thin ani. Bijamrita hi thlai chi chiah na atan a kan hman tur chu ani.

Ingredients (Damdawi siam nan a hmanraw mamawh te):

1. Bawng ek tharlam 5kgs
2. Bawng zun 5 litres
3. Tui 20 litres
4. Chinai thi 50 grams
5. Lei dip 1kg

Preparation (A siam dan):

1. Bawng ek 5 kgs kha puan a kan trawn anga, kan bawh phui ang.
2. Tui 20 litres ah darkar 12 chung kan chiah ang.
3. Chinai thi 50 grams kha tui litre khatah zankhua in kan chiah ang.
4. Bawng kan chiah kha darkar 12 hnu ah kan la chhuak anga, lei dip kg 1 nen tha taka chawhpawh leh tur ani.

5. Bawngzun litre 5 leh chinai thi kan chiah kha a chung mi ah khian kan pawlh dawn ani.

Seed Treatment (A hman dan):

1. Bawng ek hmanga kan damdawi siam khi 20 litres kan la anga, thlai chi 100 kgs chiah nan a hman theih ani.
2. Thlai chi chu thelretpuan emaw silpouline chungah kan chap darh anga, damdawi kha hneh tak in theh kual thet thet tur ani. Damdawi kan theh kual zawh khian uluk tak in kan kutin kan chawhpawh leh ang.

2. JIWAMRITA

Jiwamrita hian thlai in an mamawh chaw thra nutrients leh fertilizer a pe chhuaka, an hrisel in an than duh phah em em ani. Nitrogen a pai tam a, leia awm rannung trangkai tak tak (microbes) ten chaw tha an hmuh phaha, hei hian lei a tih that phah in kan thlai te tan chaw tha an siam bawh a ni.

Ingredients (Damdawi siam nan a hmanraw mamawh te):

1. Tui 20 litres
2. Bawng ek 1 kg
3. Bawng zun 1 litre

4. Kurtai 200 grams
5. Chhangphut 200 grams (chana/be mu her dip hman ni se)
6. Lei dip tha kut thum khat vel

Preparation (A siam dan):

1. Tui 20 litres ah bawng ek leh a zun chu pawlh tur.
2. Kurtai, chhangphut leh lei dip ho kha pawlh tur.
3. A chung mi ho khi chawhpawh vek hnu ah darkar 48 chung daihlim ah kan dah ang.
4. Ni khatah vawi 2 tal chawh kual tur, hei hian bawng kan hlawm tur kha a veng dawn ani.
5. Darkar 48 kan chiah hnu ah chuan a hman theih tawh a ni.

When to use (Engtik huna hman tur nge):

1. Kan leitha siam chu kan hman hma in ni 2 tal ni khatah vawi 2 chawh thin tur ani. Leitha hi lei hnawn laia pek tur.
2. Ni 15 dan zelah pek tur. A theih phei chuan thla khatah vawi 3 pek a tha.
3. Jiwamrita kan siam kha kan mamawh dan a zirin tui nen pawh dala thlai bulah leih / kah tawh mai dawn a ni.
Entiran: Jiwamrita 1 litre kha tui 4 litres ah kan pawlh dal leh ang. Kar khat chunga hman zawh tur.
4. Kan hman bang te chu daihlimah dahin thosi len/net in khuhphui tur, hei hian pangang , tho leh rannung dang tui tur lakah a veng dawn ani.
